# Peacock Eyes

## Even-count peyote pattern

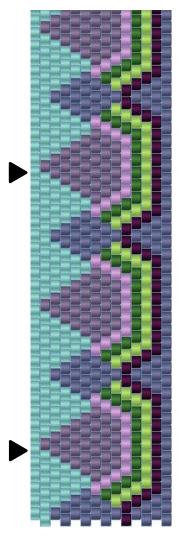

The tail feathers of the male Peacock are simply beautiful and the 'eyes' that are found in feather are elegant and colourful. The simplified and highly stylize eyes found in this pattern try to reflect the real thing.

Personalize the pattern by using other colours and finishes.

Enjoy!

# Peacock Eyes peyote pattern

Even-count peyote pattern

#### Suggested colours:

DB-1135 (Opaque Avocado) Approximately 125 beads

DB-1174 (Galvanized Matte Eggplant)
Approximately 250 beads

DB-169 (Opaque Chartreuse AB)
Approximately 115 beads

DB-1756 (Sparkling Purple-lined Amethyst AB). Approx. 300 beads

DB-912 (Sparkling Lt. Amethyst-lined)
Topaz. Approximately 125 beads

This pattern assumes that you know how to stitch even-count flat peyote. Begin stitching from the bottom right of the pattern. Repeat the design as needed; the above quantities of beads will stitch a design approximately 6.25" long. To convert this flat pattern to a bracelet, consult the accompanying information.

indicates the pattern repeat.

### Converting your flat peyote band into a bracelet

I started using this method of finishing and attaching a clasp when I had requests to change an existing clasp that was stitched onto the band – a time consuming job that meant redoing some of the bracelet's stitching.

Stitch your peyote band until it just measures your wrist size. Ease will be included when finishing and adding the clasp.

#### Create a loop at both ends of the band:

Weave your working thread back through the band and exit at one of the centre-most beads. Add seven cylinder beads in the appropriate colour and stitch back through an adjacent upper bead (figure 1).

Snug up the beads. Follow the thread circle two more time to

and trim (figure 2).

Repeat above steps on other end of the peyote band so that a bead ring is created at both ends.

secure the bead ring. Weave the working thread into the band

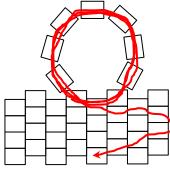

Figure 2

#### Attach a clasp to the bead rings

Use a jump ring to attach the loop end of a toggle clasp to one end of the peyote band.

Use a jump ring to attach a 3-link length of small link chain. Use a second jump ring to attach the other end of the chain to the bar end of the toggle clasp. You can adjust the length of chain to perfectly fit your bracelet.

#### **Trombone clasp**

This method is a little more involved that the previous method but it works very well to provide a cuff look. A trombone clasp is easy to put on and take off.

The size of the trombone clasp must accommodate the width of the peyote band. There is a 'handle' on either side of the trombone clasp. The peyote band wraps around the 'handle' and is stitched in place. The other end of the band is wrapped and stitched on the other handle.

#### **Getting started**

Wrap the start end of the band around the 'handle' of the trombone clasp so that the end of the peyote band loops back onto the band. You don't need a large loop; the smaller the loop, the neater it will appear. Using the thread tail of the band, stitch into the beads of the band and 'zip' back and forth between the beads of the band end and the beads of the band.

After completing the row, stitch back into the band a few rows and trim.

Ensure that the bracelet fits by trying it on and 'dry fitting' the band around the second half of the clasp before stitching it in place and finishing it off.

Using a trombone clasp to convert a band to a bracelet.
